

Practical Hemorrhoids Relief

Treating hemorrhoids, it is very important that the patient understands the cause of its existence. At most cases, treating **hemorrhoid** fully may take a lot of time, receiving **hemorrhoids** relief would be a great deal to extra the patient from suffering from pain and burning sensations. The majority of products for hemorrhoid consists of active ingredient that allows the patient to experience temporary relief from pain or inflammation. If you want to apply self care measures before undergoing operation or other serious medical intervention, you can follow these tips.

First, Apply a Hemorrhoid Cream or Take Suppository Pack on the Area Affected

Creams usually give the feeling of comfort and in the short term ease the pain because they act as topical numbing broker which means that the patient suffering from hemorrhoids will not feel the pain caused by the particular ruptured tissues. Another important thing to do is to drink eight to nine glasses a day so as to provide support to the digestive system. Remember that hemorrhoids occur because of poor digestive tract that develops constipation and diarrhea. Another measure to give hemorrhoids relief is to apply ice packs on the swelling area. This could aid in reducing the size of the large.

One preventive method so as not to worsen your hemorrhoid condition is to always keep your anal area clean, however, do not use dry tissue to be able to wipe it. By wiping mouthwash, the patient will be increasing chances of infections or added wounds. Hemorrhoids make the anal area more sensitive. The best thing to do is to use moist tissues whenever performing going number 2.

- When sitting at a prolonged period, you are putting pressure on the hemorrhoid part.
- To avoid this, use a hemorrhoid cushion.
- This is in fact similar to the rubber cushions used by children at the beach.
- Use them when you intend to sit for a prolonged period.

Exercise Should be a Part of Our Daily Lives, Most Especially When You Have Hemorrhoids

Exercising everyday can help in reducing the size of the group while providing you comfort because of relieve body heat and sweat. If you do not have time exercising but still want to experience comfort from the pain, you can acquire pain killers from drug stores. These can be used without doctor's prescription since these drugs are universal ones.
